

# JANTZEN AUDIO

## How to use the DIY kit configurator.

### Step 1:

Go to: <https://jantzen-audio.com/diy-kits/>

### Step 2:

Click the button to start your configuration:

## Welcome to the DIY kit configurator

### Important general information

1. You can only configure one DIY kit at a time.
2. It is not possible to complete the payment for your DIY kit directly through the configurator.
3. After you have completed your configuration, we will provide you with a detailed price quote, including the exact shipping cost to your specified location.
4. The DIY kits can only be ordered directly from Jantzen Audio and are not offered via our distributors.
5. Prices for EU based consumers are shown including their local VAT rate.
6. Prices for non-EU based consumers are not subject to the addition of VAT and are shown excluding any import tax that may apply.

For more information, please visit our [Frequently asked questions \(FAQ\)](#) or review our [Sales terms](#).

Click here to start your kit configuration

### Step 3:

Choose your country of residence by clicking your country's flag.

You can also search for your country in the search field and then click the flag.

### Choose your country

Please note that due to EU sanctions, we can no longer ship DIY kit orders to: Armenia, Belarus, Kazakhstan, Kyrgyzstan and the Russian Federation.

Country search:

Search countries...

 Albania

 Andorra

 Argentina

 Australia

 Austria

 Belgium

 Bosnia & Herzegovina

## Step 4:

Choose the DIY kit you want to configure.

You can use the free text field or filter kits by category and/or type.

You can also sort results by name or price.

Then click the “add to order” button and then click “next step” in the bottom right corner of the screen.

### Choose DIY Speaker Kit

## Step 6:

Optional additional accessories you can add to your DIY kit order.

Click the “add to order” button and then click “next step” in the bottom right corner of the screen.

Do you want to add any additional accessories to your order?

 1 pair of Binding Post Terminals- Satin Nickel Finish <small>If your selected DIY kit does not already include 4 sets of binding posts for bi-amping, you can add 2 extra pairs to your order if you will bi-amp</small>	1	<a href="#">Add to order - € 9.00</a>
 Bitumen anti-drum panel - 4 mm thickness - 50 x 50 cm (2 units are needed) <small>For less thick/dense cabinet material, adding bitumen will help lower resonance. Usually recommended for cabinet materials like MDF/HDF/Baltic birch of less than 22 mm in thickness. Please note that for orders shipping outside Europe, adding bitumen can significantly increase the shipping cost.</small>	2	<a href="#">Add to order - € 24.00</a>
 White cloth for dust covers - one piece of 100 x 184 cm (1,84 m2) <small>Sold per 1 running meter (1 running meter = 1,84 m²)</small>	1	<a href="#">Add to order - € 25.00</a>
